the children will be escorted to
our Lunch Bunch group.

Vision

Community Presbyterian Preschool provides a warm and loving program where your child can grow and develop cognitively, physically, socially, emotionally, and spiritually.

Philosophy

We understand that children learn best by doing, touching, smelling, tasting, listening, and observing. Large group, small group, teacher-led, and individual learning opportunities abound and add excitement to our program while children safely investigate and explore the world around them.

Children learn best by doing, touching, smelling, tasting, listening, and observing. Large group, small group, teacher-led, and individual learning opportunities abound and add excitement to our program while children safely investigate and explore the world around them.

Program Goals

- Help children deepen their sense of self worth.
- Encourage children's participation in learning.
- Enable children to create and discover.
- Help children to develop responsibility, independence, self control, and self direction.
- Help children develop friendships.
- Extend children's awareness of their environment.
- Give children personalized attention.
- Provide opportunities for children to know God and to contribute to their spiritual growth.
- Help children practice healthy and safe habits.
- Prepare children for success in kindergarten.

Preschool through T-K

Our teachers are educated in Early Childhood Education and are passionate about working with young children.

California State Standards are met, and students will be prepared to enter kindergarten.

Curriculum

- Math foundations
- Pre-reading skills
- Science
- Hand writing / proper print / tracing
- Social studies

- Motor Development class
- Outdoor play time
- Outdoor Classroom

Enrichment Class — Fun with science, music, and art
Children 4+ years of age can explore the world of science through simple experiments, cooking, gardening, etc. Musical instruments, simple songs, and basic notes/timing are taught. Art using a variety of mediums is explored.

Children enrolled in the Enrichment class may also go to Lunch Bunch afterwards up until 3:00PM for an additional \$7/hour. Just sign up and pay the days you want your child to stay at Lunch Bunch afterwards.

Tuesdays & Wednesdays
12:00—2:00
\$70/month for 1 day / week

Motor Development

Class— Each class attends a Motor Development class a few times each month.

Motor Development is held in our Fellowship Hall.

It is a special class using special equipment that helps in the development of large motor skills.

The philosophy of The Outdoor Classroom is "anything you can do indoors, you can do better outdoors." Besides our raised garden beds and being part of the Pacific Corridor for Monarch butterflies, we introduce children to concepts of recycling, upcycling, reducing and reusing, and water conservation. They also have fun on our wonderful playgrounds, patios, and in our gardens playing (and looking for bugs and lizards).
